

ERASMUS RAYMONDES NAIBAHO

+6281269250896 | erasmus.naibaho1712@gmail.com | www.linkedin.com/in/erasmusm

East Jakarta, DKI Jakarta, Indonesia

Graduated Electrical Engineering from President University with strong base in IoT embedded system, electrical power and control system, PLC programming, mechanical assembly, programming languages, and industrial automation. Demonstrated track record in aviation metrology through developing magnetic field calibration equipment and executing hands on calibration for avionic devices and measuring tools such as multimeters and voltmeters. Obtained experiences in high-voltage cable installation, human machine interface deployment, Microsoft Office utilization, and quality control inspections to ensure compliance with the stated procedure. Driven to apply cross functional skills in automation and systems engineering with a strong eagerness to learn and contribute to innovative projects.

Work Experiences

PT GARUDA MAINTENANCE FACILITY (GMF) AeroAsia - Tangerang, Banten *

Apr 2025 - Jul 2025

Calibration Engineering Intern

- Designed and modeled a 50 Gauss Helmholtz coil prototype using AutoCAD, SolidWorks and PLA 3D printing. This innovates a new method to conduct an independent in-house magnetic field standard for gaussmeter calibration.
- Executed hands on calibration and tool verification processes for 30+ aviation measuring equipment. This ensures strict compliance with ISO standards and internal operational procedures to maintain avionic tool reliability.
- Conducted electrical safety inspections and routine maintenance workflows on 30+ varied avionic calibrators. This protects measurement integrity across facility by adhering directly to aviation quality guidelines.
- Conducted inspection and operational handling of 10+ PLC systems and 5+ pneumatic machines that supports preventive maintenance activities and ensures equipment functionality in accordance with technical and safety procedures.

PT FORSTA KALMEDIC GLOBAL (KALBE GROUP) - Pulogadung, East Jakarta

Sep 2024 - Dec 2024

Production Engineering Intern

- Installed and aligned high-voltage electrical cables, critical components, and mechanical frames for 20+ mobile x-ray units to make sure precise positioning within ± 1 mm tolerance to maintain optimal imaging quality.
- Conducted electrical safety inspections and calibrations for 10 mobile x-ray units, ensuring compliance with industry standards.
- Researched and tested 5+ mobile x-ray devices UI back-end programming system to guarantee continuous operation during simulated x-ray expose.

Education

President University - North Cikarang, Bekasi Regency, West Java

Aug 2022 - Apr 2026

Bachelor of in Electrical Engineering, 3.69/4.00

- Electric Power Engineering, Power Operation and Control, Energy Conversion, Embedded Systems Design, Electromagnetics Engineering, Electronics Circuit Design and Analysis, Digital Signal Processing, Power Operation and Control, Object Oriented Programming, Electric Machinery, Feedback and Control Systems.

Organizational Experiences

President University Major Association (PUMA) Electrical Engineering

Sep 2023 - Dec 2024

Head of Secretary Division

- Created and archived necessary letters together with members, successfully recorded each incoming and outgoing letters.
- Analyzed and interpreted data from various documents, ensuring 100% accuracy and relevance to organizational needs.
- Supervised members participation in big organization events which plays a crucial role in the success of the event.
- Completed the organization accountability report for a period together with members.

Project, Skill, & Training

- Helmholtz Coil Prototype Design** *(2025): Designed an innovation of a 50-Gauss Helmholtz coil prototype utilizing SolidWorks and PLA 3D printing to establish an independent magnetic field standard.
- Skills:** IoT Projects Development, Electrical Inspection, Mechanical Assembly, Data Analysis, Project Management, PLC Programming, SCADA System, Embedded Systems Development, Robotics & Mechatronics, Power System Analysis, Control Systems Engineering, AutoCAD, SQL & Database Management, Programming Languages (Python, C++, C#, HTML, JavaScript), Statistical Analysis (Power BI, Google Analytics), Microsoft Office (Word, Excel, PowerPoint).
- Training** *(2024): Introduction Automation Industry Online Training held by Engineering Academy
- Training** *(2024): Databases and SQL for Data Science with Python – IBM (Coursera)
- Training** *(2024): Distributed Control System Fundamental in Process Control – Engineering Academy
