PROFESSIONAL SUMMARY

Cost Accounting professional with 3+ years of experience in manufacturing industries (FMCG and industrial manufacturing). Currently leading cost control, standard costing, variance analysis, and production cost monitoring as a Cost Accounting Supervisor. Experienced in monthly closing, budgeting, inventory control, and cross-functional coordination with Production, PPIC, and Warehouse teams. Strong analytical mindset with proven ability to enhance cost visibility and support management decision-making.

CORE COMPETENCIES

- Cost Accounting & Manufacturing Cost Control
- COGM & COGS Reporting
- Standard Costing & Variance Analysis
- Budgeting & Cost Planning
- Inventory Control & Stock Opname Coordination
- Monthly Closing Process
- Process Order Monitoring
- SAP (MM/CO) & Microsoft Excel (Pivot, Lookup, Data Analysis)
- Cross-functional Collaboration

PROFESSIONAL EXPERIENCE

PT Mulia Industrindo Tbk – Cost Accounting Supervisor (Mar 2024 – Present)

- Lead preparation and analysis of monthly manufacturing cost reports including COGM, COGS, and production variances.
- Conduct weekly cost review covering material consumption, electricity usage, and production lead time per cost center.
- Monitor and analyze COGS per material to identify inefficiencies and cost improvement opportunities.

- Review GR/GI transactions and production process orders before period closing to ensure cost accuracy.
- Coordinate monthly closing activities related to inventory and manufacturing cost.
- Prepare Job Cost Sheets and cost estimates for new materials.
- Coordinate monthly stock opname and ensure alignment between physical inventory and SAP records.
- Collaborate with Production and Warehouse teams to monitor material usage and operational efficiency.

PT United Family Food – Cost Control (Aug 2023 – Feb 2024)

- Prepare COGM per SKU and analyze material and production variances.
- Verify departmental budgets and monitor cost realization against plan.
- Handle monthly closing using moving average method.
- Review production numbers and inventory transactions prior to closing.
- Conduct stock opname and reconcile with AX system records.

PT Torabika Eka Semesta – Factory Accounting Cost & Controller (Jul 2022 – Aug 2023)

- Verify GR, GI, and production-related documents for cost accuracy.
- Review labor cost allocation and petty cash utilization.
- Conduct and validate stock opname using SAP.
- Prepare COGS reconciliation, raw/packaging material variance, labor variance, and machine utilization analysis.
- Prepare factory COGM reports for monthly cost analysis.
- Assist in preparation of standard cost and annual cost budgeting.

EDUCATION

Universitas Riau – Bachelor of Accounting (2017 – 2021)

GPA: 3.63
